5 HEATING
ZONES

COMPACT
& LIGHT WEIGHT

6 HEATING
ZONES

Heated gilet with Bluetooth cable, ideal for full enjoyment of your outdoor activities. The 5 heating areas distributed throughout the jacket provide gentle, uniform warmth. Very thin and lightweight, it can be easily worn under another garment.

Materials:
Outer: 100% nylon fabric,
Lining: 100% nylon,
Collar: 100% polyester,
Insulation: 100% polyester: 120gr

Sleeveless heated jacket with an urban look! With its 6 active heating zones, it will provide you with an even and pleasant warmth. The jacket can be easily connected to an external battery via USB.

Materials:
Outer: 100% polyester,
Outer side panel: 89% nylon, 11% spandex,
Lining: 100% nylon,
Collar: 100% polyester
Padding : Polydown - 100% Polyester

For Therm-ic self-heating jackets.

**SLIM UNIVERSAL
POWERBANK 5 000 mAh**
T41-0702-001

The super slim powerbank. Its capacity of 5000 mAh can heat the jacket for 5 hours on the level 1 setting and 2 hrs 30 on the max setting.

**SLIM UNIVERSAL
POWERBANK 10 000 mAh**
T41-0703-001

Powerful external battery of 10000mAh. The battery will provide up to 11 hours of heat if you manage the heat from the app, otherwise you can enjoy 4.5 hours of heat when plugged in directly.

POWERBANK CAPACITY (hours of heat)	5 000 mAh	10 000 mAh
Without Bluetooth - MAX	2h15	4h30
With Bluetooth - MODE 1	5h30	11h
With Bluetooth - MODE 2	4h30	9h
With Bluetooth - MODE 3	3h50	7h40
With Bluetooth - MODE 4	3h10	6h20
With Bluetooth - MODE 5	2h40	5h20
With Bluetooth - MODE 6	2h15	4h30

For baselayer S.E.T®

BODY PACK
T41-0401-100

The Body-Pack battery is a slim and compact battery for use with S.E.T® Therm-ic heated baselayers. Its 3 heating levels can be adjusted at the touch of a button.

Heat level	Time (hours of heat)
1	4h30
2	3h15
3	2h00

EXTRA WARM

STAY COMPETITIVE IN THE COLD

Warm and technical underwear offering perfect breathability and insulation thanks to innovative knitting technologies. Moisture-Vent Technology, combined with Buffer-Cones, helps wick moisture whilst retaining warmth for optimal comfort.

BREATHABLE

SMART ELASTIC TECHNOLOGY®

S.E.T.®

HEAT CONDUCTION SYSTEM

Being connected to the S.E.T.®, the heat conduction system efficiently spreads warm air to a wider surface area. The 3-dimensional structure is in direct contact to the skin in order to guarantee maximum heating power.

BUFFER CONES

Improved heat retention while reducing material: thanks to smart, 3-dimensional knitting technology, this is not a contradiction in terms. The Buffer Cone Chambers form fine interstices in which air, heated by the body, can be stored and serve as a cold buffer.

MOISTURE-VENT TECHNOLOGY

A new level of breathability: the Moisture-Vent Zone is a high-tech material zone that absorbs moisture from the skin and transports it to the outside.

- Keeps the skin pleasantly dry
- Reduces skin irritation
- Protects the body from cooling down during breaks
- Increases wearing comfort

SMART ELASTIC TECHNOLOGY®

ULTRA WARM BASELAYER S.E.T.®

ULTRA WARM

ULTRA-BREATHABLE, HEATED BASELAYER WITH PERFECT BODY MICRO-CLIMATE

The technical and warming baselayer keeps the back dry and at a comfortable temperature in all conditions.
