

REBEL

# REBOOTS

RECOVERY IS EVERYTHING

REBEL

**WHAT**

**WE DO**

# ACHIEVE YOUR ATHLETIC GOALS WITH NOTICEABLY RECOVERED LEGS!

Reboots support you in not only reaching your athletic goals, but exceeding them.

Reboots supports the recovery of your legs, so that you can retrieve your maximum performance after hard training sessions faster. With this secret weapon against tired legs you have a competitive advantage on your side!

# HOW IT WORKS

01

After hard training, waste products such as lactic acid are produced in your muscles, which greatly affect your performance.

02

Reboots performs a gliding massage on your legs with the help of compression air chambers. The waste products in your legs are removed more quickly.

03

After the recovery massage you will immediately have fresher legs and feel much more recovered and efficient the next day - whether while a competition or training!

REBOOTS

REBOOTS

LINDA CHET

# YOUR REBOOTS BENEFITS

## ADVANTAGE 1

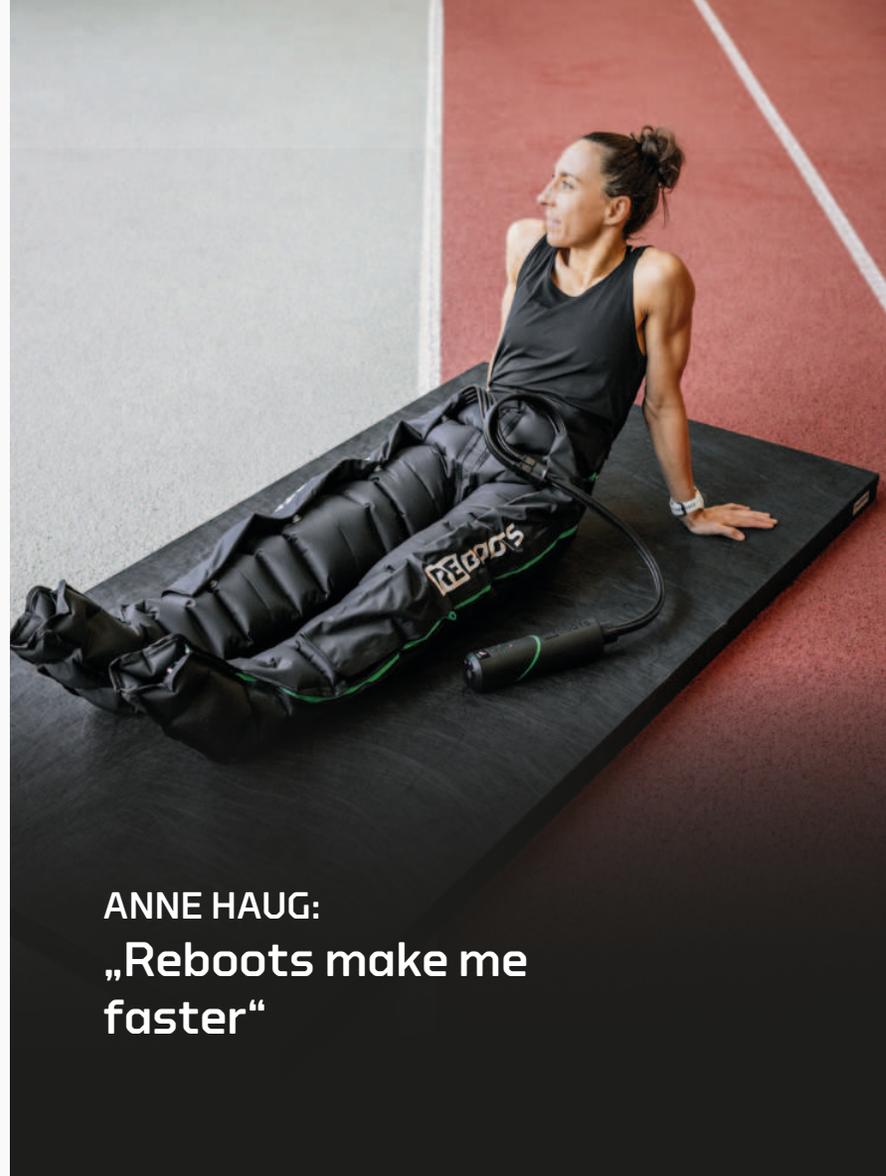

# TANGIBLE FRESHER LEGS

Do tired legs often put the brakes on your ambition?

The Reboots massage supports the reduction of the blood lactic acid level. The result: noticeably looser legs for your hunt for best performance!

## ANNE HAUG

TRIATHLETE  
IRONMAN WORLD CHAMPION 2019  
WINNER CHALLENGE ROTH 2021  
3RD PLACE IRONMAN WORLD CHAMPIONSHIP  
2021 & 2022

ANNE HAUG:  
„Reboots make me  
faster“

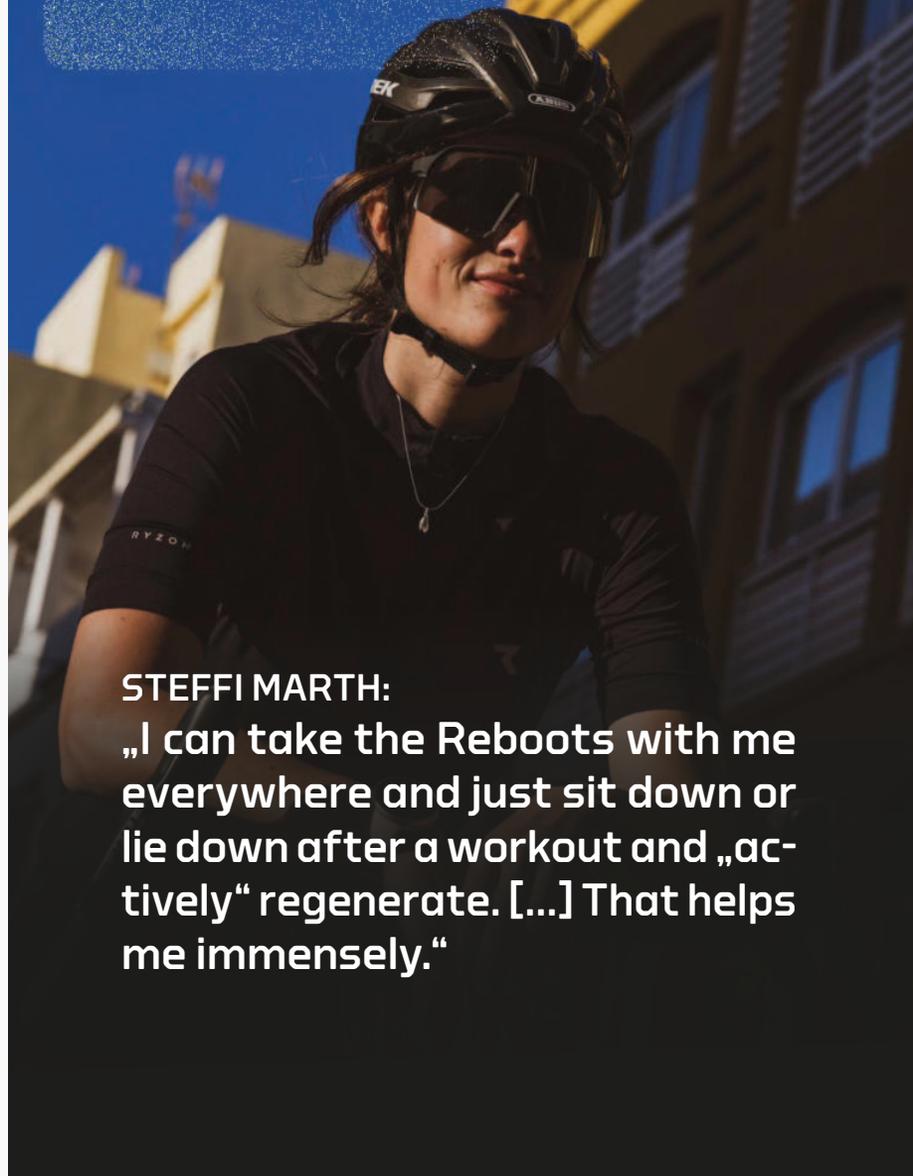

## ADVANTAGE 2

# DON'T LET INJURIES STOP YOU

Injuries can set you way back in your training preparation.

Reboots helps you prevent muscle injuries, swelling and tightness. Stay on track for success without getting injured!

**STEFFI MARTH**  
PROFESSIONAL MOUNTAIN BIKER

**STEFFI MARTH:**

„I can take the Reboots with me everywhere and just sit down or lie down after a workout and „actively“ regenerate. [...] That helps me immensely.“

## ADVANTAGE 3

# RECOVERY WITHOUT TIME LOSS

Due to lack of time, effective regeneration possibilities are often neglected. Reboots gives you back the time. Use your reboots parallel to relaxing or working, so you don't lose time.

**FREDERIC FUNK**  
TRIATHLETE

**FREDERIC FUNK:**  
„With Reboots by my side, I'm getting closer and closer to my goal of winning the biggest races in the world.“

# CUSTOMIZE YOUR MASSAGE

The individualization feature offers the advantage that the air pressure of each compression chamber can be individually adjusted, resulting in an even more individual and targeted massage.

Thanks to the integrated app connection, the novelty can be controlled via the Reboots app in the future.

Further features such as the HOLD-Timer, the INTERVAL-Timer or the possibility to deactivate individual chambers round off the Reboots One Pro.

REBOOTS GO LITE

## THE NEW (RE)GENERATION

The smart and battery-powered Reboots Go Lite device is smaller, lighter, and less noisy than any comparable device currently on the market. Nevertheless, it does not sacrifice pressure performance. Choose between 3 massage programs: The programs vary in intensity and adapt to all your needs - from gentle relaxation to intensive massage.

It also has a connection to the new Reboots App, which allows convenient control of the regeneration massage via smartphone. The highlights are the 4 additional massage programs and the option to deactivate each air chamber individually via the app.

**2h** Battery Power · **ca. 50 Min.** Battery Charging Time

With the power cord plugged in, you can use the device at any time.

REBOOTS APP

# SMART RECOVERY

Smart App control: the Reboots App allows you to organize and save your favourite programs in individual sequences in the Sequence Hub. You can combine the programs as you like and assign different pressure levels and running times to them to perfectly adapt the massage to your needs. Another highlight: Choose between the Reboots sequences of Anne, Frederic & Co and recover like a champion! Currently available for the Reboots One Pro and the Reboots Go Lite.

REBOOTS

# PANTS 2.0

## REBOOTS RECOVERY PANTS 2.0 - FASTER AND BETTER

Through the ergonomic adjustment via zippers on the upper and lower leg and the specifically developed flow technology of Reboots, the volume per chamber is optimized and reduced giving you more massage cycles in the same time.

RECOVERY PANTS 2.0

# ONE SIZE NEVER FIT SO PERFECTLY

The innovative Pants 2.0 extend the regeneration massage into the lower back and massage all important muscles in the hip and gluteus area.

The leg circumference of the Pants 2.0 is adjustable by three separate zippers each on the upper and lower legs and can thus be adapted to the individual leg anatomy. The chambers of the Pants 2.0 overlap each other, avoiding gaps that impede reflux. This gives the massage quality an upgrade.

The Pants 2.0 are available with 4, 8 and 12 compression chambers and therefore compatible with the Reboots Go Lite, One and One Pro devices.

# ARM CUFFS 2.0

## MAXIMUM REGENERATION FOR THE UPPER BODY

The innovative Arm Cuffs 2.0 are not only an optimal extension of your Reboots Recovery Set, but a leap into a new era of muscle relaxation. The comprehensive compression massage extends from your arms to your chest and shoulders.

**EASYCLIP FOR  
SIMPLE HANDLING**

ARM CUFFS 2.0

## **SIMPLY BETTER**

Thanks to the overlapping chambers and the revolutionary flow technology, every second of your massage is optimised so that waste products such as lactate are removed more efficiently after intensive training sessions. The result? Fresher, lighter arms and accelerated recovery. The EasyClip also allows you to put on the Arm Cuffs 2.0 with just one movement. No complicated tightening, no slipping. Just slip it on, take off and lean back.

The Arm Cuff 2.0 comes to you in a double pack. This guarantees optimal fit and handling for your right and left arm. It is available with 4, 6 and 8 chambers and compatible with all Reboots devices.

# BOOTS VS. PANTS

The classic Recovery Boots end at the crotch and are put on like two separate boots. The massage thus ends at the level of the groin, which excludes the muscle areas above the thighs.

With our Reboots Pants, the massage starts at the feet and ends at the lower back, allowing for better recovery all the way to the center of the body. Here, in addition to the gluteus maximus, the piriformis, iliopsoas and hip flexor are also included in the massage - in other words, all the important muscles in the hip and buttock area.

# THERMO SLEEVES

Especially in sports with high impact on the joints, such as ball sports, running, or racquet sports, post-training recovery is important.

The Thermo Sleeves offer targeted and practical treatment for sore muscles and can thereby enhance recovery and well-being. The heat and cold application of the Thermo Sleeves is particularly beneficial for the following body areas:

- Elbows
- Wrists and ankles
- Knees
- Thighs
- Calves

## HEAT APPLICATION

Heat promotes blood circulation to muscles and joints. Using Thermo Sleeves for heat application relaxes the muscles and can help with tension-related discomfort. Additionally, heat can aid in post-exercise recovery.

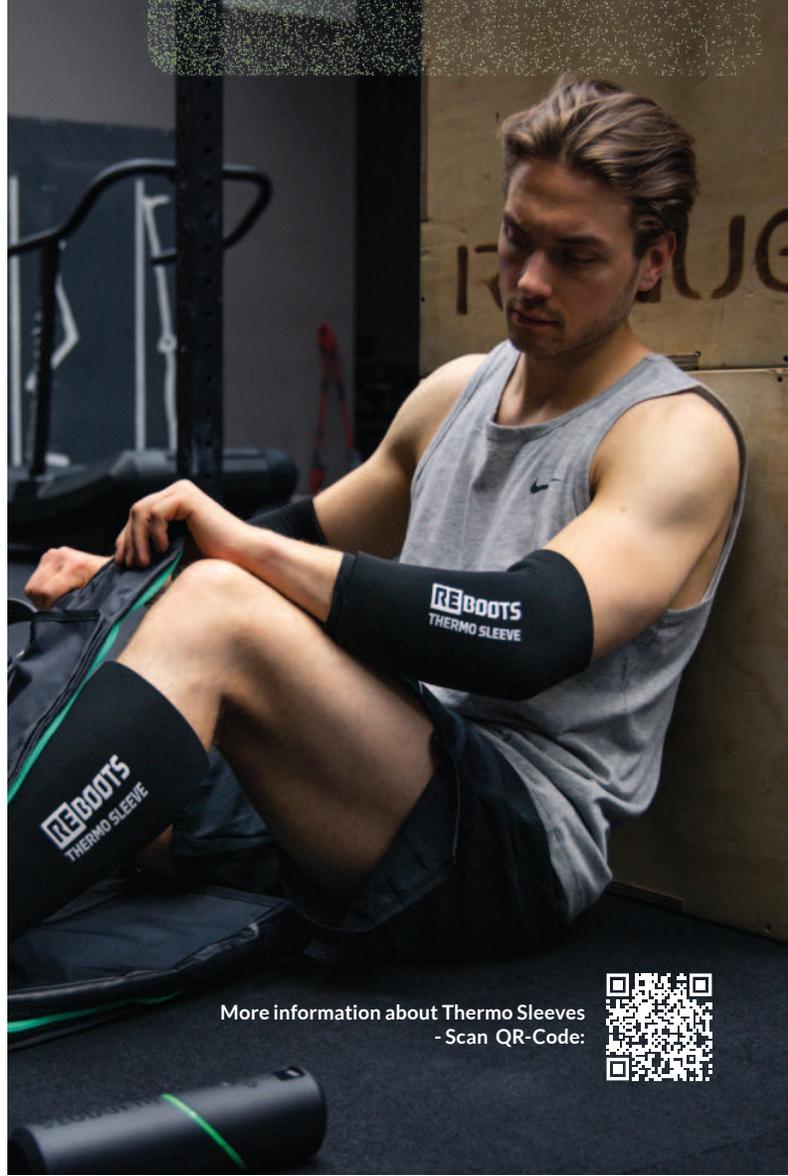

## COLD APPLICATION

Cryotherapy provides pain relief and reduces swelling. In addition, inflammatory processes are significantly slowed down. Products designed for targeted cold application are often used for muscle and joint injuries accompanied by pain and swelling. They reduce blood circulation, thereby inhibiting pain and swelling.

**THERMO SLEEVE SINGLE: €45**

**THERMO SLEEVE DOUBLE PACK: €80**

**THERMO SLEEVE TRIPLE PACK: €110**

# RECHARGE SET

Power Naps effectively boost your recovery in just 20 minutes a day. The Reboots Recharge Set gets the maximum out of your nap. Due to the small pack size and the matching carrying bag, you can easily pack it for your location-independent, regeneration-promoting nap. The cover of the Recharge Set consists of zinc oxide in the special Smartcel fiber.

The advantages at a glance:

- Regenerative
- Antibacterial
- Thermoregulating
- Skin-friendly
- Odor-inhibiting with long freshness effect
- Environmentally friendly.

## REBOOTS RECHARGE PILLOW

The Recharge Pillow is made of soft memory foam that adapts to your body with every touch. Your neck experiences remarkable pressure relief, which has a positive effect on the quality of your sleep.

## REBOOTS RECHARGE BLANKET

The cuddly Recharge Blanket has a thermoregulating effect. Your skin is cooled when your body temperature is high, while it prevents you from freezing during your rest. Snuggled up in your Recharge Blanket, you can create your own cozy recovery spot, quiet reading nook, or peaceful nap environment anywhere.

**RECHARGE PILLOW: 69€**

**RECHARGE BLANKET: 99€**

**RECHARGE SET: 159€**
