THE FUTURE OF MOUTHGUARD TECHNOLOGY

The new era of player safety: smart mouthguards

The Prevent Instrumented Mouthguard (iMG), made by OPRO, is a groundbreaking innovation that monitors head impacts, identifying players who need to be assessed. In case of a diagnosed concussion, immediate intervention can help prevent further harm. Each iMG is crafted by OPRO, setting the gold standard for protection, fit, and comfort.

Smart mouthguards are mandatory in rugby from 2024 for all 8,000 professional players
