College Pro Cover

Free play Table soccer for indoor use

First free play table to have the tempered unbreakable glass on top making it safer by having the playfield covered preventing the possibility to put ones hands near the figures and to touch the ball. Moreover, the ball can't bounce out of the table, and eventually can't be taken away. Having the playfield covered reduces enormously the sound of the match. For these characteristics, it is proven to be the best choice for schools and institutes where the safety of young's, is a major issue keeping in mind the safety of the surrounding place at the same time, since the ball may escape from the playfield and hit a piece of furniture, glass or etc.

- Single block table structured of multilayer poplar coated by MDF, a special material combination used mainly for competitions for its highly solid and heavy resistance during the toughest competitions. The quality and reliability of the multilayer is enhanced by two MDF sheets at the external parts to make it an extremely hard surface to resist on the rebound of the ball
- Feet are made of a special soft plastic material that guarantees the adherence on the ground
- 5 mm tempered glass playfield
- Unbreakable tempered glass cover
- 18 mm rods with extra soft rubber handles
- Screen printed headboard logos of Roberto Sport and the ITSF (International Table Soccer Federation)
- Available in blue and gray colors
- Supplied with 10 balls and 1 lubricant spray for rods.
