

LOXY® Seal

LOXY® SEAL, seam sealing tapes, are an important element to complete the waterproof structure of the garment. The adhesive tapes prevent humidity and water from getting into the inner layers of the garment, keeping the body dry.

SINCE 1970

In 1970, Sto-Nor Industri AS began as a small operation based in Halden, Norway. As a sub-contractor to the textile and clothing industry we maintained focus on our core values and pushed to become a major supplier of safety solutions to the garment industry. In 2015 Sto-Nor changed its name to Loxy and turned into a truly global business with a sales organisation around the world and production facilities in Norway, Sweden, Poland, China.

A global business shaped by the elements.

LOXY KEEPS YOU DRY

For work- & sportswear, outdoor & leisure

Shaped by Norway

LOXY® Seal

Trustworthy seam-sealing solutions

LOXY® SEAL, seam sealing tapes, are an important element to complete the waterproof structure of the garment. The adhesive tapes prevent humidity and water from getting into to the inner layers of the garment, and thus keep the body dry.

LOXY® offers a wide range of seam-sealing tapes, including single-, two- and three-layer tapes. This facilitates the search for the appropriate tape to meet the most challenging adhesion requirements

Single layer

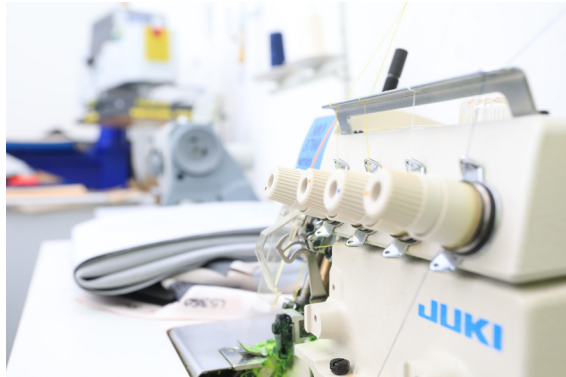

Single layer seam sealing tape is ideal for PVC and PU rainwear garments that are manufactured by high-frequency welding and seam sealing machines.

Two-layer

You may choose our two-layer tapes for use on thin and fine fabrics. These tapes are available for both PU and PVC waterproof garments. Two-layer seam sealing tape is applied over previously sewn seams to prevent water and air transfer through stitched holes. LOXY® two-layer tape is commonly used when seam sealing is applied directly on the waterproof membrane.

Three-layer

Three-layer seam sealing tape is designed for thick or heavy-duty fabrics. It is most appropriate for heavy work-related industries including fire protection, chemical protection, military, medical, automotive and dry suits/wet suits.

It's all about trust and reliability

LOXY's highest priority for clients is to offer the best products. Therefore, we not only ensure that we can offer a wide range of seam sealing products, but we also work together with JUKI - a supplier of the best quality machinery and devices.
