2026 COLLECTION

VENTURE
SERIES

ELEVATE YOUR **ADVENTURE**

The Venture Series represents a new chapter in our journey, one that's defined by high performance and tailored for the true adventurers among us.

We've channelled our expertise in packable performance clothing to create a collection that will be your companion for pushing boundaries, conquering challenges, and exploring the untamed beauty of nature.

Each garment in this collection is meticulously crafted to withstand harsh conditions while offering the utmost comfort, flexibility and style.

SUMMIT JACKET

INSULATED DOWN FILLED JACKET

Reliable insulation in cold conditions.

The Summit jacket provides unrivalled warmth without bulk or weight, making it the ultimate protection for high-altitude adventures.

Suitable for hill walking, hiking and scrambling the Summit jacket has a regular fit and a warm down-filled hood with a stiffened peak for extra protection from the elements.

Highly compressible, the Summit jacket is easily packed down and stashed in your pack to be removed when the temperature drops. The Summit jacket has been tested at Everest Base Camp and withstood temperatures of -15 degrees

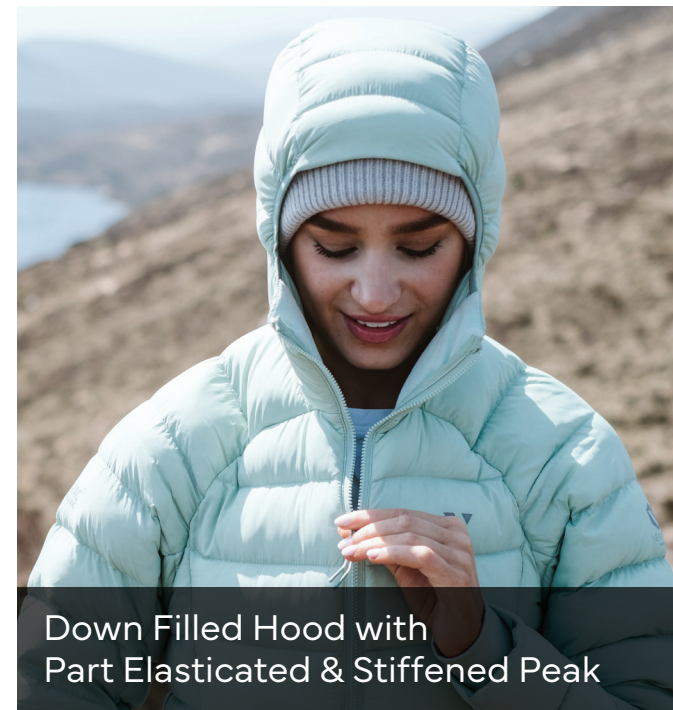

The Ideal Balance of Durability,
Comfort and Performance

ULTRALITE TROUSERS

LIGHTWEIGHT WATERPROOF TROUSERS

Ultralite trousers for sports enthusiasts who like to move faster.

The Ultralite trouser is a versatile highly breathable and waterproof trouser. The flexible Vaporlite fabric moves with your body to ensure unrestricted movement. An elasticated waistband and internal drawstring provide a comfortable and adaptable fit.

The knee high-zips make them suitable for a quick change and easy for adapting to sudden variations in weather conditions.
