

100% Custom Insole

Outdoor Nuuksio

- ▶ Natural FSC cork topcoat for a smooth & silky touch
- ▶ Minimal EVA cushioning layer for a snug fit
- ▶ Patented Balance Plate for robust support

MOULDED
IN-STORE

The Nuuksio insoles feature a durable and natural cork topcoat made of FSC (Forest Stewardship Council®) certified natural cork, a sustainably harvested, renewable material. The insole has minimal EVA cushioning that is optimal for tight-fitting shoes. The slim profile with regular width is ideal for low-volume shoes or users who prefer a snug fit. Designed especially for trekking and hiking to guarantee a steady step on uneven terrain.

The product features EVA containing 20% recycled content and has no antibacterial treatments for a reduced chemical load. Made in Spain.

100% Custom Insole

Outdoor Pallas

- ▶ Polyester Felt top layer for insulation
- ▶ EVA cushioning layer for added comfort
- ▶ Patented Balance Plate for robust support

MOULDED
IN-STORE

The Pallas insoles feature a durable and soft polyester topcoat to keep you warm in a cool climate. The 100% polyester material uses 50% recycled fibres. While the EVA cushioning brings extra comfort and support, the Balance Plate gives robust support and helps prevent injuries caused by foot malposition. Pallas is optimal for medium to high-volume shoes with a removable insole. Designed primarily to create extra insulation for trekking, walking or ski boots.

The product features EVA containing 20% recycled content and has no antibacterial treatments for a reduced chemical load. Made in Spain.

100% Custom Insole Outdoor Hossa

- ▶ Moisture wicking and breathable top layer
- ▶ Soft memory foam and EVA cushioning for extra comfort
- ▶ Dynamic Balance Plate for even weight distribution

MOULDED
IN-STORE

Keeping the feet cool and dry, the Hossa insoles feature a breathable fabric that wicks away moisture. The unique material is made of recycled polyamide & biobased bamboo viscose. The plush PU foam and EVA cushioning add a pleasant and comfortable feel to every step while the Balance Plate helps the feet to a better alignment. Optimal for medium to high-volume shoes with a removable insole. Excellent for trail running or other high-intensity outdoor sports.

The product features EVA containing 20% recycled content and has no antibacterial treatments for a reduced chemical load. Made in Spain.
