BETASPUN®

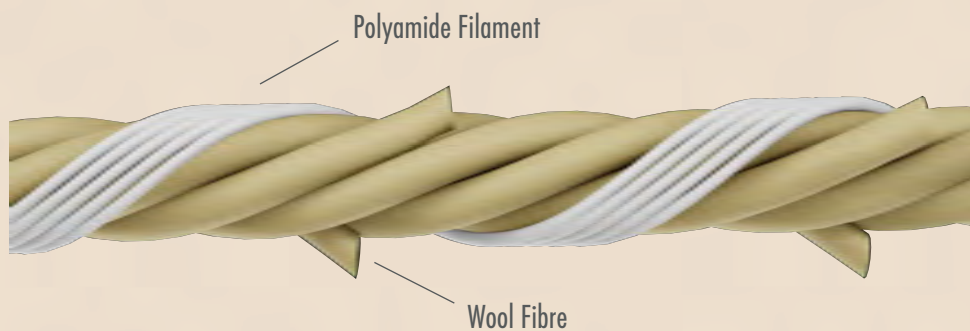

PUSHING THE BOUNDARIES

TOGETHER. BETASPUN®

Elephants stand tall with their exceptional strength and durability, Just as Betaspun® technology, elevating lightweight performance yarns to new heights. A fine Polyamide filament twisted around Merino wool provides the wearer with resilience and comfort. A deep, remarkably intelligent bond – like the one elephants form within their herds.

Betaspun® yarn properties:

- Significant strength boost
- Extra abrasion resistance
- Better pilling performance
- Clean surface with Polyamide
- Fine yarn to use in lightweight applications
- Perfect for seamless, circular and warp knitting
