Bråtens - *about us*

Bråtens is a Norwegian brand. Bråtens started up in 1955 under the name Bråtens Fabrikker, with the collection Eskimo.

The story started with the production of varm wool socks for the Norwegian, Swedish and Danish armed forces, and the sirius dog patrol in Greenland for extremely cold conditions.

In 2017, Loxy AS bought the company Bråtens Fabrikker. A year later there was a rebranding and the new brand name Bråtens was launched.

Bråtens has produced warm wool garments for over 69 years with "passion" for Norwegian wool and warm wool sweaters, we still produce the warm good wool socks, the socks that started our history. We produces warm woolen clothing to sports and outdoor stores, as well as demanding user groups such as the armed forces and the police.

Quality wool brand since 1955

Our vision - *keep you warm*

Our clothes are timeless, functional and of very high quality, made to last for a long time. Our vision is to warm the people - we produce products that keeps people warm in changing weather and seasons.

Our garments have been developed over time to be optimal products that are relevant season after season.

Our garments fall under the "slow fashion" category, where we dont change good basic products unnecessarily. Our goal is that you can take on your garments from us, year after year, and it will be just as relevant as previous years.

The endless horizons of the sea, and the beautiful changes of the seasons. Nature is there for all of us whether we work, go for a walk, fish or hunt.

Bråtens - we will keep you warm!
