## BAT WEIGHTS: IMPORTANT INFORMATION

Bat weight and performance is dependent on the particular cleft of English Willow that it is made from. No two clefts are the same even from the same tree.

**Heavier willow** - less prone to damage, inherently more powerful.

**Lighter willow** - more manoeuvrable, faster bat speed.

**ALWAYS SELECT A BAT BASED ON ITS PICK UP, HOW IT FEELS TO YOU, NOT ON ITS SCALE WEIGHT.**

**NAKED WEIGHT!**

Your bat, when born in Gunn & Moore's Nottingham, England factory weighs about **30z less** than its retail weight when fitted with **GM NOW!**, ToeTek, labels and a single grip.

## BAT SIZES EXPLAINED

### GM BLADE LENGTHS

GM 2023 Adult bats feature two different blade lengths – L540/555. Each blade shape is optimised for a specific blade length.

As blade length decreases, handle length increases so that the overall length of the bat remains constant.

Shorter blades allow for faster hands through the ball, more dynamic sweet spots, larger swells, supreme balance and explosive power.

TO GIVE YOUR BEST YOU NEED THE RIGHT EQUIPMENT. GM manufacture a bespoke size of bat - ACADEMY for taller youths. Designed from the outset for these specific players, custom tuned for pick-up and power.

|               | Academy |
|---------------|---------|
| Blade width   | 104mm   |
| Blade length  | 555mm   |
| Handle length | 280mm   |

**IMPORTANT**

Kashmir Willow Bats from India and Pakistan have some different characteristics from English made bats and even though the faces of these bats have been pressed to give a tough resilient surface, nevertheless some surface cracks and indentations will, in all probability, appear in use. Such markings should be ignored; they are normal for this type of timber and will not detract from the continuing good performance of the bat.

## THE GM PICK-UP INDEX

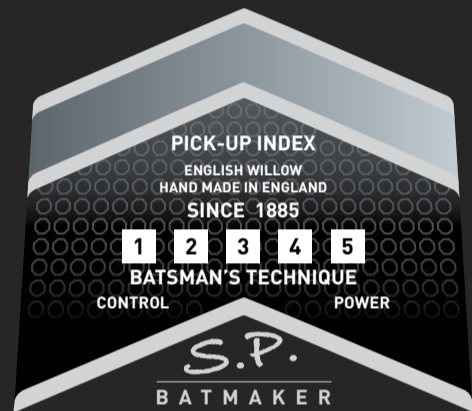

Gunn & Moore English Willow bats are expertly crafted to produce the best balance available from a particular cleft of timber.

Most cricketers appreciate that whilst the absolute weight of a bat is of interest, it is the 'feel' or 'pick-up' of the bat when playing strokes that is more revealing of its character and more useful to tune the bat to the player's technique.

A bat with a 'light' pick-up may well suit a 'touch' batsman more accustomed to guiding or controlling the ball accurately in precise directions, whilst a 'heavier' pick-up bat will be appreciated by batsmen more used to the power game.

Gunn & Moore introduce the GM Pick-Up Index, an assessment made at the factory by the batmaker of the bat's relative pick-up. This is a subjective view as to the type of batsman who may derive maximum performance from the bat, rather like a wine expert recommending a particular vintage to suit an individual's taste.

The Pick-Up Index will prove useful in helping batsmen select a particular Gunn & Moore bat to further develop and exploit their technique to very best advantage.

The Gunn & Moore Pick-Up Index is clearly displayed on all Five Star English Willow bats.

## WHICH GUNN & MOORE BAT?

Selecting a cricket bat is a very personal decision. There are no right or wrong bats, the bat to choose is the one that feels most comfortable for you. We recommend that you always feel the bat before you buy it and that you pick up several bats before making your final choice. Make sure you ask where your bat is made and by whom. All GM DXM English willow bats are made by our own craftsmen in our own factory in Nottingham, England. GM 5 Star dealers carry a wide range of GM bats and will give sound advice. The Gunn & Moore range of bats is designed to suit every technique and budget.

We offer six blade shapes designed using our world leading DXM process:

**DIAMOND® L540, HYPA™ L555, KRYOS™ L540, BRAVA™ L555, PRIMA™ L540, SPARQ® L540 & RADON™.**

Each shape has different profile characteristics which are explained in detail on pages 3-14.

We offer English willow bats in nine qualities:

**ORIGINAL L.E., ORIGINAL, SIGNATURE L.E., 909, 808, 707/SIGNATURE, 606, 404 & RADON™.**

Each quality is developed around different grades of willow which are explained in detail on page 5.

## THE BEN STOKES MIRACLE OF HEADINGLEY - 135 NOT OUT - AUGUST 25TH 2019 - 3RD ASHES TEST

What a day, what an innings! Ben Stokes' unbeaten 135 won England a thrilling one-wicket victory to level the series. This was an innings that earned plaudits from some of the biggest names in cricket...

**Former England batsman Geoffrey Boycott on Twitter:**

"I've seen some remarkable cricket moments in my life but that is the best I've seen in over 50 years. @benstokes38 saved the Ashes and gave a magical inspirational innings. Even better than his World Cup performance."

**Former England captain Michael Atherton:**

"On this ground, great English innings in recent years, you're thinking Botham in 1981, (Graham) Gooch in 1991, (Mark) Butcher 2001 and Ben Stokes has to top all those. Australia, Ashes at stake, this has reignited the Ashes after England were dead and buried."

**Former Australia captain Ricky Ponting:**

"I'm not sure I've seen anything better than that on a Test ground, to be honest."

**Former Australia bowler Glenn McGrath on BBC's Test Match Special:**

"What a class cricketer Ben Stokes is. Amazing with bat, ball and in the field. Is there a better all-rounder in the world right now?"

**Former England captain Michael Vaughan on Twitter:**

"What a privilege to witness the Greatest Test innings I have seen @benstokes38."
