ABOUT US

Quest Sport was founded in the 1980s by people deeply connected with sport, driven by the ambition to bring innovative products to the market. In our early days, we produced clothing for Himalayan mountaineers and supported the first Polish expeditions to some of the world's highest peaks. With years of experience, we shifted our focus to developing and producing **professional cycling apparel**.

Sport is our passion, and we want to share it with others. Our products are constantly improved to ensure the highest level of quality and comfort for our customers. **All of them are tested by renowned athletes**, including Olympic medalist Maja Włoszczowska.

We are also the official partner and clothing supplier of the Tour de Pologne.

Show your individuality.
Create your own design – or let us do it for you.

MADE IN JELENIA GÓRA

PRODUCTION

Every project at Quest Sport goes through a complete process – from graphic design and the selection of colors and materials, to precise sewing and finishing. We combine modern printing technologies with craftsmanship-level attention to detail. This results in apparel that stands out for its quality and unique character.
